# GPA Advocacy

## July 21 GFDC meeting

Affects all KSEE pilots, owners, business owners, vendors...

### Gillespie Field in crisis – we need your help

- Promote GPA on the airport
- Promote GPA by contributing to website
- Promote GPA by engaging in social media on our behalf
- Promote GPA by participating on GFDC virtual meeting

### JOIN: Gillespie Pilots Association

GPA - advocates for our airport...  
Only \$10 per year...

Meet: First Saturday of each month 0900-1000

KSEE Admin building: 1960 Joe Crosson Dr, El Cajon, CA 92020

• (in person when possible – virtual when necessary)

• Fly in or drive in - park on ramp in front of the terminal for your Classic Display credit

Gillespie Pilots Association is open to all pilots, owners, businesses and visitors at KSEE.

We need you to help make our pilot association fun, effective, interesting and educational.

View our Facebook pages and join GPA on our website!

Meet with fellow Gillespie Field pilots, talk about airplanes, events, airports and aviation stuff...

Tell your story, and hear stories from our guest speakers and learn about our airport and community from FBO's, flight schools, maintenance companies, law enforcement etc. Laugh a little, brag a little, learn a little – and enjoy the many ways the GPA serves its pilots and owners.

Come for the free donuts and coffee - stay for the speakers, sharing information, safety tips, airport construction plans and aviation issues affecting all of us who fly out of KSEE.

#### Three reasons YOU should join GPA

1. **Community:** Stay informed about our airport including airport news, flight training, construction, safety, and flying opportunities. Find out what the Airport Manager, Tower Manager and our elected officials have to say...
2. **Costs:** We help keep the cost of flying affordable by working with FAA, County Airports and Gillespie Field Development Council on stuff that affects the cost of flying, parking and maintenance on our airport - we want to hear YOUR story!
3. **Connections:** Meet and greet other pilot groups like - Antique Aircraft, EAA, Air Group 1 and the 99's. Learn about flying events and scholarships - Share your story or adventure...
4. **BONUS REASON:** Classic Aircraft Display signoff available during our in-person meetings! Come for the meeting - have your form signed when you leave...

Be informed about what is happening at Gillespie Field and surrounding airports. Learn/review safety tips and procedures for flying. Share information about adventures and trips, make new friends!

Win a prize - valuable gifts awarded in our raffish - Win an hour in a full-motion Redbird Simulator!

Your voice can be heard through the GPA. Help protect and improve our airport using the political process. GPA's input to County Airport staff, GFDC, and County Board of Supervisors makes a difference! Your opinion matters - join us!

## What is happening at MYF? – Plus One Flyers perspective...

- Why Pilot Associations like GPA are important!
- Many @ MYF have seen a significant increase in the hourly a/c rental rates which for the most part was from the increase in fuel costs (\$.50/gallon) when Crownair took over the Gibbs lease May 1.
- All BE-76s have relocated to the Plus One Flyers ramp at Gillespie Field.
- With the increased costs at EAP (formally known as Gibbs Flying Service) the move was needed to keep the rates from exceeding \$300/ hr.

Dave Eby  
Plus One Flyers Operations

P1F has 60 aircraft at KMYF – BE-76's have already moved to KSEE

16

## What is happening at MYF? – Plus One Flyers perspective...

- **CrownAir** said the ramp rent went from \$33,000 to \$46,000 per month and that Gibbs was selling fuel cheaper.
  - MYF - \$5.79 (P1F discount)
  - SEE - \$4.95/\$4.65
  - RNM - \$4.69
  - SDM - \$4.79/\$4.38-\$4.29
  - CRQ - \$6.65/\$5.79 (P1F discount)
  - L18 - \$4.75
- The current **CrownAir** rate per gallon is \$5.99 and they are giving the owners the same .20/gal discount Gibbs offered.
- The next big hit will be July 1 when tiedown spots go up, keep in mind they are a business and deserve to make a profit.
  - **NOTE: MYF DOES NOT HAVE AN ORGANIZED PILOT ASSOCIATION TO PROVIDE FEEDBACK OR ACTIVELY ADVOCATE FOR REASONABLE FEES/RATES**

• Oil up from \$8/qt to \$10.67/qt  
• Ramp lease rate \$1841/acre  
• (KSEE - \$1280/acre)

**FAA: Clarify "Warbird Adventures Decision" (Protect CFIs as "Educators")!**

We at SAFE, representing over 3600 flight educators, urge the Agency to expedite a final ruling preserving the instructor's historic role as "educator" and not "charter pilot." Adopting the broader interpretation implied in this court's recent decision would create irrevocable harm to our industry and diminish aviation safety.

**FAA: Clarify "Warbird Adventures Decision" (Protect CFIs as "Educators")!**

We at SAFE, representing over 3600 flight educators, urge the Agency to expedite a final ruling preserving the instructor's historic role as "educator" and not "charter pilot." Adopting the broader interpretation implied in this court's recent decision would create irrevocable harm to our industry and diminish aviation safety.

**“AOPA is disappointed by this decision and its finding that when a flight student is paying for instruction, the student is being carried for compensation. This departs from the long-standing premise that the compensation a flight instructor receives for instruction is not compensation for piloting the aircraft, but rather is compensation for the instruction,” said Justine Harrison, AOPA’s general counsel.**

*AOPA and five other aviation organizations had filed a “friend of the court” brief in the case, Warbird Adventures, Inc. et al. v. FAA, in which the FAA alleged that the company was operating a limited category aircraft, a Curtiss P-40N Warhawk, for compensated flight training without a required exemption.*

25

## Fallout From Warbird Case

### *Send Your Opinion To FAA*

- Are CFI's carrying students considered "flying for hire"?
- Or are they being paid for their flight instruction?
- Narrow ruling could have negative impact on training/safety...

**SAFE** has taken a clear stand opposing the recent court [Warbird Adventures Decision](#). We are asking the FAA for immediate clarification supporting the historic FAA interpretation of CFI as "aviation educator" and NOT "charter operator."

Though [current analysis](#) indicates that CFIs are not immediately threatened by this judicial ruling (this was a very narrow decision targeting a specific operation), the "downstream" implications could create huge problems for CFIs in legal liability, charter confusion and CFI medical certification.

SAFE has [written directly to the FAA](#) seeking immediate clarification establishing that CFIs are paid as educators, not charter operators, and we encourage members and supporters to speak up, using the [SAFE letter](#) as a reference.

>>>Email your letter to [Ali.Bahrami@faa.gov](mailto:Ali.Bahrami@faa.gov) - immediately, using the [SAFE letter](#) as a guide. Make your voice (and concerns supporting CFIs as "educators" clear! More detail in the [SAFEblog](#).

## Remote Towers: Do You Care?

*Take This Quick Remote Tower Quiz*

An air carrier airport in London is the first major airport to control traffic remotely, with SAAB Digital Air Traffic Solutions controllers 90 miles away.

The new system allows controllers in the tiny English village of Hampshire to issue ATC clearances at London City airport. A state-of-the-art digital 50-foot tower at the airport has 16 high-definition cameras. Included array are two pan-tilt-zoom cameras that replicate binoculars in the tower.

Similar efforts in the US to set up remote towers are languishing, with the FAA saying only that they are "currently evaluating this technology." Efforts are currently overseen by the FAA's Non-Federal Policy And Oversight Program.

A remote tower set up at the busy Leesburg VA airport has been in test mode since 2019, and the Leesburg town council in April requested extended operating hours for their tower. Would remote controllers be an issue for your flight instruction?

**What do YOU think?**

**Remote towers?**

*...say what?*

27

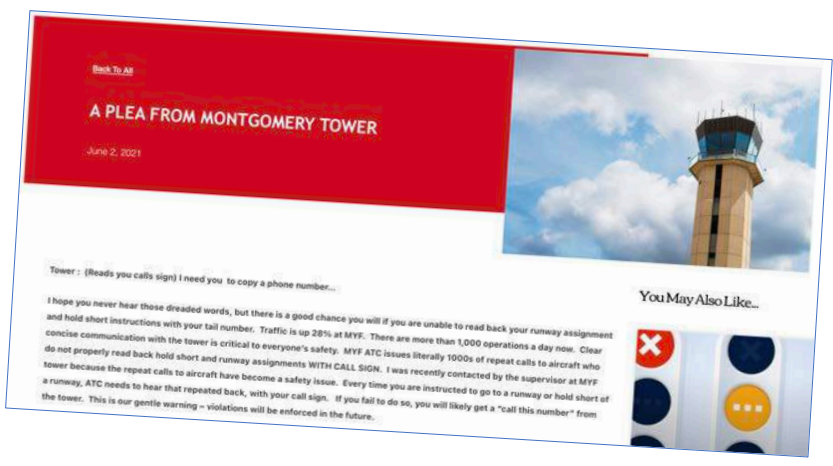

**“Every time you are instructed to go to a runway or hold short of a runway, ATC needs to hear that repeated back, with your call sign. If you fail to do so, you will likely get a “call this number” from the tower. This is our gentle warning – violations will be enforced in the future.”**

## FAA RELEASES FINAL RULE ON PILOT RECORDS DATABASE

*What do YOU think?*

FAA Administrator Steve Dickson acknowledged the role of family members and close friends of the victims of the February 12, 2009, fatal crash of an air carrier Bombardier DHC-8-400 on an instrument approach to Buffalo-Niagara International Airport in New York in bringing about the safety-of-flight reforms.

“It has been a long journey for the families of Colgan Flight 3407, but their tireless advocacy and continued engagement with the FAA has made this database a reality. With it, employers will be able to quickly and thoroughly make informed hiring decisions to keep our skies safe,” he said.

The FAA has released a **final rule** that requires air carriers and other operators to report their pilots' employment history, training, and qualifications in an electronic database. Operators seeking to hire pilots must review database records on applicants.
